Crown Putt

PUTTING GREEN TURF · SKU CP · Rev 08/10/26

Call for pricing

Crown Putt is a texturized PP putting surface — 0.75 in pile, 55 oz/sq yd face weight, 77 oz/sq yd total, on a tight 3/16 in gauge, half the gauge of our landscape line.

YARN CHARACTERISTICS / CARACTERÍSTICAS DE LA FIBRA

Yarn Type / Tipo de fibra	Texturized PP
Composition / Composición	PP
Dtex / Dtex	6600
Face Colors / Colores de fibra	Olive bicolor

BACKING CHARACTERISTICS / CARACTERÍSTICAS DEL RESPALDO

Primary Backing / Respaldo primario	PP fabric
Backing Weight / Peso del respaldo	7 oz/sq yd
Finish Coating / Capa de acabado	Polyurethane
Finish Coat Weight / Peso de la capa de acabado	15 oz/sq yd
Drainage / Drenaje	Permeable — perforated

COMPLIANCE & COVERAGE / CUMPLIMIENTO Y COBERTURA

Lead / Plomo	Free — per mill testing
PFAS / PFAS	Free — per mill testing
Green Speed / Velocidad del green	Not rated — system-dependent
Quality Standard / Norma de calidad	FIFA Quality tested
Product Code / Código de producto	CP

MILL PERFORMANCE INDEX / ÍNDICE DE DESEMPEÑO DE FÁBRICA

Ball Control / Control del balón	100	Wear Resistance / Resistencia al desgaste	90	Water Permeability / Permeabilidad al agua	90
UV Resistance / Resistencia UV	90	Heavy Metal Free / Libre de metales pesados	100		

Mill performance index, 0-100 scale. Comparative — not a test result. / Índice de desempeño de fábrica, escala 0-100. Comparativo, no es un resultado de prueba.

APPROVED USE / USO APROBADO

Putting and practice surfaces

NOT SUPPLIED BY SUPERIOR / NO SUMINISTRADO POR SUPERIOR

Leveled silica sand infill — required for play · Laser-graded, compacted base to tight tolerance · Cups, flags and hole liners · Fringe or collar turf around the green

SPECIFICATION NOTES

- No roll-speed rating is supplied with the material. How a finished green putts is a property of the installed system — base flatness, sand infill depth and grade, brushing, and maintenance — not of the turf alone.
- Leveled silica sand infill is required. An unfilled green will not putt true regardless of the material specified.
- All figures are nominal manufacturing values subject to normal production tolerance. Slight variation in thatch texture and dye lot color between rolls is expected and is not a defect.
- Superior Turf Direct supplies materials only and does not perform installation. Base design, compaction, and installed drainage are the responsibility of the installing contractor.
- Order the full job together and run every piece in the same pile direction. A reversed piece reads as a color change.
- Compliance statements reflect the manufacturer's declaration. Third-party lab reports are available on request.
